

18ct Gold F
£850.00

A refined antique pearl band crafted in solid 18ct yellow gold, dating to circa 1883 and bearing UK Chester hallmarks. The ring is set with five natural pearls, each housed within diamond-shaped settings that are seamlessly integrated into the band, creating a subtle geometric rhythm across the finger.

The pearls display the soft lustre characteristic of the period and are securely set, allowing the ring to be worn comfortably as either a stacking band or a standalone piece. The polished gold band has a pleasing weight and smooth profile, reflecting the quality craftsmanship associated with late Victorian jewellery.

Timeless and understated, this antique pearl ring offers quiet elegance and historical charm, making it a versatile addition to both modern and traditional jewellery collections.
