Our View

The Must de Cartier collection remains one of the most exciting areas of the vintage watch market. Originally introduced as a more accessible luxury offering, these watches have developed a loyal collector following thanks to their distinctive designs and unmistakable Cartier DNA.

This reference 590003 perfectly captures the appeal of the range. The multicolour tuxedo dial adds individuality, while the vermeil construction brings the richness of precious metal styling without the cost of solid gold.

A stylish, wearable and increasingly collectible vintage Cartier that offers genuine character and charm.
