

SHAPIRO & Co  
since 1979

- Cuff-links are in 18ct Gold and 9ct Gold
- Date from 1960s

Dating back to the seventeenth century, cufflinks came about when men wanted something more elegant for their shirts than ribbons or ties to hold together their cuffs. Men began using small chains that were fastened to the end of a gold or silver button and fed through the holes of the cuff to keep them together.
