

Rolex Explorer II 216570

£8,495.00

A beautiful example of an underrated Rolex Explorer II with a white dial presented as a complete full set with both inner and outer boxes, manuals, both swing tags, wallet and a warranty card dated 2018. We took the stance to leave the watch unpolished but a free procedure can be arranged after the refund period has lapsed.

The Rolex Explorer II, model 216570, features a 42mm stainless steel case, a fixed stainless steel bezel with 2-hours interval engravings, a crisp white polar dial with a combination of dotted, baton and arrow markers, date aperture at 3 o'clock, a bright orange GMT hand and a sapphire crystal glass.
