

**Downstairs at Grays: A Stunning 18 Carat Yellow Gold Aquamarine and Diamond Necklace, attributed to Arthur King, with a Natural, Untreated Aquamarine of 27.11 Carats. Circa 1970.
POA**

This exceptional 18 Carat Yellow Gold (tested) Aquamarine and Diamond Necklace has been carefully sculpted with raised point designed lozenges, graduating (in width), towards the asymmetrical centre point, which is raised claw set with a spectacular Natural, Untreated, Octagonal Oval Cut Aquamarine of 27.11 Carats, Light Blue and Eye Clean.

The central design is randomly supported on either side by a total of six Pear, Oval and Round Mixed Cut Aquamarines totalling 11.40 Carats, all Pale Blue, Eye Clean to Lightly Included. Interspersed with five Round Brilliant Cut Natural Diamonds totalling 0.60 Carats, of G - H Colour and VS1 - VS2 Clarity.

The Necklace interior dimension and fit is probably around 17.33".

This beautiful necklace is accompanied by an independent Gemmologist's report confirming the the above assessment.

We also received a verbal indication that "the likely origin of the central Aquamarine is probablyBrazil".

Circa 1970.
