

**Breitling Top Time 2007**  
**£1,550.00**

This Breitling Top Time 2007 is in fine working order and really great value version of the iconic James Bond watch from circa 1967.

Steel 37mm cushion shaped case with a silver dial matching baton hour markers with the chronograph sub dials in black giving a reverse Panda look to the watch. Bark effect to the case outside of the dial with the dial itself showing a great natural patina coming from the silver dial.

This iconic watch screams 60's / 70's and is an affordable version too!

Plexiglass and not to be considered waterproof this is a manual wind watch.
