Downstairs at Grays: A fine Round Sapphire and Diamond Cluster Ring mounted in Platinum (tested). Mid 20th Century.
£8,450.00

This exceptional mid-20th-century Cluster Ring centres on a magnificent Round Mixed-Cut Natural Sapphire of 1.35 carats.

The Sapphire possesses a captivating deep blue hue and is completely unheated; a rare and highly desirable attribute, as the vast majority of sapphires undergo thermal treatment to enhance their colour. Elevated in a Classic Raised Claw Setting, the central gem is framed by a radiant halo of ten Round Brilliant-Cut Diamonds, totalling approximately 1.20 carats. These exceptionally Bright Diamonds offer an impressive F-G colour grade and clean VS2 to SI1 clarity, creating a striking contrast against the rich tones of the Sapphire.

Finely crafted in Tested Platinum, this timeless piece beautifully captures the refined elegance of post-war vintage design. The ring is currently a UK size K ½ and is accompanied by an Independent Gemmologist's report confirming its, unheated status.

Condition	Consistent with age
Materials	Platinum
