

Geometric Sunburst Band in 18ct Gold | London Hallmarked c.1960s POA

This is a beautifully made 1960s ring in 18ct gold, hallmarked for London, 1965.

The band is engraved with a crisp, repeating sunburst pattern - geometric, symmetrical, and almost op-art in effect.

It's a clean-lined design that plays beautifully with light and texture, full of mid-century character without being overstated.

Measured at 7mm wide and a ring size L, it has just the right weight and presence.

Simple, sculptural, and confidently made - a timeless piece with a distinctly 1960s edge.

Available exclusively at ELTONS, Grays Antique Market, Mayfair, London.

This piece is available to purchase online at www.eltonantiquejewellery.com.
