

White Chalcedony Ring in 14ct Engraved Gold | Antique c.1900 POA

A luminous antique white chalcedony ring set in rich 14ct gold, crafted in Europe circa 1900.

The finely cut, octagonal chalcedony displays a soft, translucent glow that shifts subtly in changing light, a hallmark of high-quality stone.

The gem is bezel-set in a smooth, architectural gold frame, supported by elegant shoulders engraved with a gentle scroll motif.

The stone can be personally engraved or left beautifully as is.

Marked 585 for 14ct gold, confirming its European origin and quality.
