

Buren D.H. Vintage German Military Watch
£795.00

Watch: Buren D.H. Vintage German Military Watch

Price: £1850.00

Stock Number: CHW6170

This well preserved Buren DH German military watch is presented in excellent condition considering its age and its job which is effectively a tool watch used by the German army.

Caseback Stamped D.H which is the markings of the German military. Manual wind movement which is signed by the manufacture.

Clear marks and scratches as you would expect but certainly nothing significant in our view.

Black dial with what would have been off white number hour markers that have naturally faded over time. Subdial and hands appear to be bright and clear. Condition overall of the case is very good, we have tried to capture any imperfections but can of course send over more images if required. Dial clearly very discoloured numbers but the branding and subdial very clear.

35mm steel case and crown. Minor imperfections to the glass. Fitted to a generic black nato style strap.

Fine working order having passed through our watchmaker. Can be serviced if requested at additional cost.
