Panerai Luminor Marina PAM00003 – Limited Edition White Dial | No. 525/1500 | Box + 2 Straps

A standout piece in Panerai's early post-Vendôme production, the PAM00003 Luminor Marina White Dial is a rare and desirable reference. Dated to 1998 via serial number, this is number 525 of only 1,500 pieces ever produced, making it a limited edition collector's piece.

This 44mm stainless steel model features a highly legible white dial—a bold contrast to the typical black-dial Panerai's of the time—with black Arabic numerals, stick-style luminous hands, and the iconic crown-protecting bridge.
