Watch: Tudor Mini Sub 73091  
Stock Number: CHW6283  
Price: £2450.00

- - Just Arrived, professional Images to follow - -

This is for sure the best example of the vintage Tudor Mini Sub you will find anywhere! You will even find some of these models being sold for far being in nowhere near the same condition as this one!

How can we be so certain this is the best example anywhere? Simple, a full documented service was carried out on this watch by Tudor themselves in March 2025 and since that service the watch has now been worn. The service costs totalled almost £700.00 and we have both the receipt and electronic service card to come with the watch.

No original box however original undated warranty papers are included as is a full set of links, swing tag and wallet.

33mm stainless steel case with a gold plated rotating bezel. Gold champagne coloured dial with white hour markers and the date to 3. Unblemished sapphire crystal. A full length bracelet in steel with gold plating in exceptional condition with the original double fold clasp.

Automatic movement that has just been fully overhaul running as good as brand new at + 2 seconds per day!

Condition wise, excellent nothing to note other than a bit of blemishing to top right of bezel.

A very fine example, presented in a generic box. Under warranty with Tudor until March 2027.
