

## **Omega Classic 2640-8** **£1,250.00**

Watch: Omega Classic 2640-8  
Stock Number: CHW6302  
Price: £1250.00

Produced in 1952 as per the serial number this watch is almost 75 years old which is quite incredible when you look closely at it. Maybe the finest example of an early 50's Omega its had a complete overhaul and service with that Calibre 283 manual wind movement working almost as new.

Presented on a new and practically unworn black leather Omega strap with Omega signed buckle along with our 12 month guarantee and next day insured delivery (or viewings in Mayfair, London).

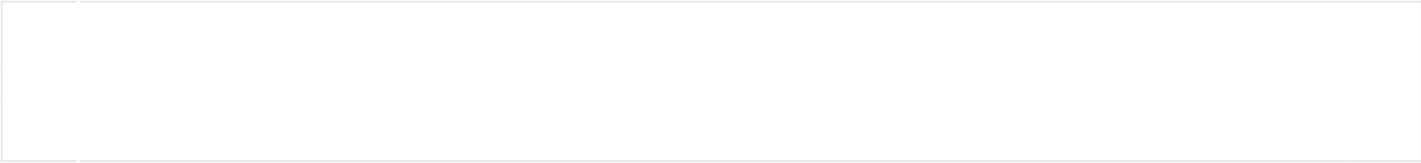

37mm stainless steel case with an exceptional silver dial that has been refinished or added when sent to Omega for a service, what this means is that the hour markers are luminous and the dial is crisp and clean as new bringing a modern twist to a very vintage watch.

Polished steel case with Omega signed crown paired with this new black croc leather Omega strap. A really beautiful vintage watch brought up to modern standards.

Manual wind calibre 283, plexiglass. Running at just - 3 seconds per day! Unreal for a watch of this age.

Condition - barely a mark on it, near perfect.

Our View - If your looking for a vintage watch that can be used daily then this is the one without doubt.
