Watch: Omega Constellation 795.1203  
Stock Number: CHW6299  
Price: £1250.00

These 90's Omega Constellation watches represent real good value for money in our view, Gold and steel and in this ones case with a Mother of Pearl dial. Elegant, discreet and small the constellation range from Omega is one that is still produced to this day thanks to excellent design and durability.

23mm stainless steel case with yellow gold bezel, black Roman Numeral hour markers surround the bezel. Mother of Pearl dial, does show some minor crack to the dial however this does not effect the operation of the watch and can only be viewed close up. Original Omega MOP dial.

Gold hour markers to match the hands and crown.

Recent full polish, pressure test and battery change this watch is provided with a 12 month guarantee.

Condition - Minor wear as you would expect but overall condition for this watch is very good. The only point to note is that minor dial mark. 8/10

Quart battery powered, sapphire crystal. Fitted to original steel and gold bracelet with folding hidden clasp. Dated to 1995 by its serial number.
