Price: £1400

Omega Seamaster Automatic Ref. 2494-2 | Gold Plated | Circa 1950s | Calibre 354 | Vintage Dress Watch

A classic from Omega's golden era, this Omega Seamaster Automatic Ref. 2494-2 is an early and elegant example of the brand's post-war mechanical watchmaking. Likely dating to the early-to-mid 1950s, this piece features a beautifully preserved rose gold-plated stainless steel case and Omega's renowned Calibre 351 "bumper" automatic movement.

With its clean cream dial, applied gold-tone hour markers, and sweeping second hand, the Ref. 2494-2 embodies the timeless minimalist design that defines mid-century Omega. The domed acrylic crystal and dauphine hands add charm and authenticity, while the watch is fitted to a new crocodile-grain brown leather strap, completing the vintage look.

Key Features

Model: Omega Seamaster Automatic
Reference: 2494-2
Movement: Omega Calibre 351 bumper automatic (17 jewels)
Case Size: Approx. 34mm (excluding crown)
Case Material: Gold-plated stainless steel
Dial: Cream with applied gold-tone hour markers
Crystal: Domed acrylic (vintage correct)
Strap: New brown leather strap with crocodile grain finish
Crown: Unsigned
Water Resistance: Not guaranteed due to age
Circa: 1952–1955

Condition

Dial: Original and clean with light vintage patina
Case: Light wear consistent with age – no major dents or deep scratches
Crystal: Clear, minor surface wear only
Movement: Runs well (Cal. 351)
Strap: New aftermarket leather strap, excellent condition
Rating: 8.5/10 overall – great condition for age

Our View

The Omega Seamaster Ref. 2494-2 is a cornerstone of vintage Omega collecting, and this example is both honest and wearable. A clean dial, attractive gold-plated case, and solid mechanical performance make this a refined choice for any collector or vintage enthusiast looking for an elegant daily wearer or entry-level piece of horological history.
