

H. Stern. Rutilated Quartz Ring.
POA

This unique striking geometric ring by H.Sten designed by Diane Von Furstenberg, exemplifies modern elegance with its bold, contemporary aesthetic. Crafted from solid 18 - carat yellow gold, it features a distinctive Natural Rutilated Quartz (approximately 50 carats) geometric form that makes a powerful statement, blending innovative design with luxurious craftsmanship, perfect for those seeking to add a bold touch to their jewellery collection.
Rutilated Quartz is a striking gemstone characterised by its unique needle-like inclusions of Rutile, creating a mesmerising pattern within the quartz.
