We love a JLC Reverso! Even more so when they have a factory gem set bezel. This Jaeger-LeCoultre reference 265.8.08 is on the original bracelet is quartz battery powered with a recent battery change and pressure test and has a factory set diamond bezel.

A really elegant piece, classic, classy and rarely seen.

Stainless steel case measuring 21mm x 33mm fitted to the original steel bracelet that has a double fold hidden clasp and will fit a wrist to 16cm.

Dial features black Arabic hour numbers with the metallic blue hands that most Reverso's feature on a white / silver background with track around the centre. Factory set diamonds wrap around the case and the top of the bezel on both sides of the case when flipped.

Working perfectly, pressure tested to 30 meters.

Presented as watch only with our 12 month guarantee and insured next day shipping.
