

**Rolex Oyster Perpetual Date 1500**  
**£4,250.00**

Watch: Rolex Oyster Perpetual Date 1500

Stock Number: CHW6455

Price: £4,250.00

A true vintage Rolex, brought from the original family owners this Buckley Dial Rolex Oyster Perpetual Date 1500 is dated to 1979 (by the date on the paperwork). Complete with inner and outer box (missing cushion), original papers and manual.

Wonderful original condition we have taken the view of leaving the watch unpolished however it can of course be polished upon request. What does this mean? We see the value in the watch left untouched and original, this will mean it will show some scratches and light marks as you would expect of a watch of this age however nothing significant in our view.

34mm stainless steel case with smooth steel bezel. The so called 'Buckley Dial' this is white with applied black Roman Numerals in this case with silver pips and silver hands. Date aperture to 3.

Automatic movement is running fine at around +10 seconds per day (can be serviced if requested at an additional charge). Calibre 3035 powers this watch.

Rolex Steel oyster bracelet with double fold clasp to fit a wrist to 17.5cm.

Our View - Wonderful original condition full set Buckley Dial from the late 70's.
