

## **Kutchinsky Diamond Set 18ct Gold 'Bow' Brooch** **£7,900.00**

An elegant and beautifully sculpted Kutchinsky 'Bow' brooch crafted in 18-carat yellow gold, showcasing the bold, expressive design style for which the renowned London jeweller is celebrated.

The brooch is shaped as a sweeping, dimensional bow, its gold ribbons expertly formed to create a sense of movement and softness. The centre is adorned with a combination of sparkling brilliant-cut diamonds and channel-set princess-cut diamonds—a refined pairing that enhances the brooch with both scintillation and geometric precision. The contrast of cuts adds depth and visual interest, elevating this piece from a classic motif to a true collector's jewel.

Kutchinsky's craftsmanship of the mid-20th century is highly prized, and this brooch is an outstanding example: luxurious, feminine, and impeccably made.

Perfect worn on a lapel, dress, coat or scarf, it brings a sophisticated vintage glamour to any ensemble.
