Overview

Omega's Megaquartz line represented a huge step forward in precision timekeeping during the 1970s. The 32KHz movement was among the most accurate quartz calibres of its time, blending futuristic performance with the timeless design of the Constellation range.

This example retains its clean silver dial with applied Omega logo and baton hour markers, French day/date display, and original brushed steel case and bracelet — making it an attractive and wearable vintage Omega.

What's Included

Watch with original steel link bracelet

12-month in-house guarantee

Insured next-day UK delivery or collection from Mayfair

Our View

A true piece of horological history, this Omega Constellation Megaquartz is an excellent example of Omega's pioneering quartz innovation. With its distinctive 1970s design, French day-date display, and original steel bracelet, it's both collectible and stylish — perfect for vintage Omega enthusiasts.
