About La Californienne

Founded in Los Angeles in 2016 by Courtney Ormond and Leszek Garwacki, La Californienne is celebrated for breathing new life into classic timepieces from brands such as Rolex and Cartier. Each watch undergoes a complete transformation — from hand-painted dials to vibrant leather straps — resulting in a distinctive, sun-washed aesthetic inspired by the California coastline and vintage surf culture.

Their process often includes:

Repainting or refinishing dials in bold colour palettes

Customising bezels, crystals, or hands

Fitting artisan-made coloured straps

Each creation is both a collector's conversation piece and a celebration of individuality.
