#### Omega Geneve 136.0104 – 1974 – Silver Dial – Manual Wind

A wonderful example of a vintage Omega Geneve, this reference 136.0104 dates to 1974 and has just undergone a full service through our workshop. Offered with a 12-month mechanical guarantee and insured next-day UK delivery or collection from Mayfair.

At 35 mm this is a classically sized watch that wears beautifully on the wrist. The silver dial with silver baton hour markers and hands keeps a timeless and elegant aesthetic, with a date window at 3 o'clock.

Housed in a stainless-steel case with an Omega-signed crown, the watch runs on the manual-wind Calibre 1030 movement, recently serviced and performing perfectly. The crystal is original plexiglass, maintaining that authentic vintage charm.

Fitted to a new premium brown leather strap and supplied with our guarantee and delivery included.

#### Condition

Excellent all-round condition. The case remains unpolished with light surface marks as expected for age. Dial is clean and free of blemishes. Crystal clear with only minimal surface wear.
