£3,200.00

A magnificent sculptural bombe ring crafted in 18k yellow gold, featuring an exceptional arrangement of rose-cut yellow quartz and brilliant-cut diamonds. French hallmarked and beautifully weighted at 20 grams, this piece embodies both opulence and artistry.

Each stone is individually set within a domed, textured gold surface, the design punctuated with clusters of fine white diamonds that enhance the warm golden glow of the quartz. The interior is intricately finished with a swirling openwork design — a mark of exquisite craftsmanship.

Bold, tactile, and full of character, this ring captures the spirit of mid-century French design, balancing avant-garde texture with timeless elegance.
