

Omega, Swatch Moonswatch "Mission To the Moon"
£375.00

Swatch x Omega MoonSwatch “Mission to the Moon” | 42mm | Bioceramic | Full Set | 2024

The Swatch x Omega MoonSwatch “Mission to the Moon” is the signature model in the highly acclaimed Bioceramic MoonSwatch collection — a playful yet faithful tribute to the legendary Omega Speedmaster Moonwatch.

Its design mirrors the professional Speedmaster worn on the lunar surface, featuring a classic grey Bioceramic case, black dial with white indexes, and the unmistakable tachymeter bezel with the iconic “dot over 90.”

Lightweight, wearable, and instantly recognisable, the Mission to the Moon bridges Swatch’s creativity with Omega’s spacefaring heritage.

Our View

The Mission to the Moon remains the benchmark of the MoonSwatch collection — the one that most closely echoes the design DNA of the original Omega Speedmaster. Its lightweight Bioceramic construction and quartz precision make it the perfect daily companion or entry point into Omega’s iconic Moonwatch lineage.

A must-have for collectors, enthusiasts, or those simply looking for a piece of modern watchmaking history.
