

Omega, Swatch Moonswatch "Mission to Pluto"
£375.00

Swatch x Omega MoonSwatch “Mission on Earth – Lava” | 42mm | Bioceramic | Full Set | 2024

The Swatch x Omega MoonSwatch “Mission on Earth – Lava” is one of the three Earth-themed models released in 2024, celebrating the raw power and beauty of nature as seen from space. Inspired by volcanic energy and the fiery landscapes of our planet, this edition brings bold colour and distinctive design to the iconic MoonSwatch lineup.

A vivid orange Bioceramic case paired with a black dial and orange accents evokes the glowing intensity of molten lava, while retaining the unmistakable silhouette of the Omega Speedmaster Moonwatch. Playful, lightweight, and instantly recognisable — it’s an adventurous twist on an icon.

Our View

The Mission on Earth – Lava captures the most vibrant and daring expression of the MoonSwatch series — a piece that embodies energy, movement, and the untamed beauty of our planet. The fiery orange Bioceramic case makes a powerful statement on the wrist while staying true to the Speedmaster’s legendary design.

A perfect collector’s piece or a bold everyday companion, this watch celebrates the fusion of Omega’s heritage and Swatch’s creative innovation.
