

Lily Pad Diamond Ring in 18k White Gold £950.00

A beautifully imaginative design, this Diamond ring is crafted in luxurious 18k White Gold and modelled in the enchanting form of a lily pad, its surface shimmering with approximately 1.00 carat of bright, lively diamonds.

The sculptural, openwork petals are pavé-set throughout, creating a lace-like canopy of sparkle that feels both delicate and wonderfully detailed. At the centre, a graceful curled tendril adds movement and depth, enhancing the organic charm of the piece. The double-split shoulders complete the design with a light, airy balance, making the ring as wearable as it is eye-catching.

Marked 750 and offered in Size J, this is a unique and expressive jewel — playful, elegant, and full of artistic character.
