

**Early 20th Century Buttons now Cufflinks in Pink Guilloche Enamel & Diamonds, French circa 1900.
£2,500.00**

A pair of single sided 18 karat gold cufflinks created from two early 20th century buttons which would have previously formed part of a dress set. Each button has a face of pink guilloche enamel with a rose cut diamond cluster centre set in silver and a border of white enamel. The modern chain link connections and torpedo terminals are well matched with the original 18 karat gold of the buttons. The style of the buttons are consistent with that of early 20th century Cartier of Paris.

Measures 13mm across.

Antique buttons (over 100 years old).

Early 20th century, most probably French, circa 1900.

Central London based retailer.
