

**Omega Speedmaster 3510.52**  
**£4,450.00**

Watch: Omega Speedmaster 3510.52  
Stock Number: CHW6663  
Price: £4450.00

A special kind of 'Speedy' this reduced Speedmaster reference 3510.52 was made specifically for the Japanese market as is known as a reverse panda dial. Made in much lower numbers and discontinued this is a limited edition version.

Inner and outer box, spare strap (worn), warranty papers and a documented service by the much respected Mr Simon Freese.

Dated to 1999 by the serial number we have left the watch in original condition having just hand washed rather than polished.

39mm stainless steel case with the original Hesalite glass. Black dial with white chronograph sub dials. Automatic movement running exceptionally well as you would expect after a service.

Original Omega bracelet with fold clasp and able to fit a wrist to 18cm.

Condition wise, left untouched so you will sign signs of wear from a watch of 25 years however however certainly nothing significant and we would consider this watch to be in excellent order (can be polished upon request).

12 Month Guarantee and insured shipping included, viewing or collection from Mayfair, London.
