

Natural Sapphire and Diamond ring POA

A beautifully composed vintage sapphire and diamond cluster ring.

The centre is a striking natural cushion mixed cut sapphire, weighing an estimated 3.85 carats.

Originating from Sri Lanka and unheated, the sapphire displays exceptional colour and clarity.

Surrounding the centre stone is a finely set cluster of natural diamonds, with a combined estimated weight of 1.20 carats, adding brilliance and elegance while enhancing the presence of the sapphire.

The ring is crafted in 18 carat white gold, providing a clean, timeless setting that complements the gemstones beautifully.

A classic and enduring design, this ring is a superb example of vintage fine jewellery and would make an exceptional engagement ring or statement piece.
