Omega Seamaster 165.002 – Silver Dial – Original Papers – 1968

A genuine vintage Omega with real history, this Omega Seamaster reference 165.002 is offered with its original Omega papers dated to 1968, along with the original Omega box (noting the box is broken and tatty, consistent with age). Recently serviced and running well, this is an honest, unpolished example presented exactly as it has survived over the decades.

The watch has just passed through our workshop and is performing strongly at approximately +7 seconds per day, and is supplied with our 12-month guarantee and insured shipping.

Our View

This is exactly how we like to see vintage Omegas — original, unpolished and honest. The visible wear tells the story of a watch that has been worn and enjoyed since the late 1960s, and the inclusion of original papers dated to 1968 adds genuine collectability. It may not be perfect, but it's authentic, mechanically sound and full of character — an excellent entry into vintage Omega ownership.
