

Tom Rucker Satellite Platinum and Aquamarine Brooch/Pendant - Saddingtons Jewellery Stand 375
£2,750.00

Completely Unique Jewellery Art Work From Designer Tom Rucker Satellite Platinum and Aquamarine Brooch/Pendant. The almost sculpture like brooch/pendant is designed by hand by master and award winning jewellery designer Tom Rucker. The design is long and slim 10cm long, 3.2cm wide at the top of the brooch/pendant. The top, a frosted platinum circle, dropping to a cylindrical cage tube with aquamarines within. The end of the piece has an arrow shaped rub over set aquamarine. The mesmerising piece has an overall appearance of a stylised space rocket or satellite in a futuristic arrow design. A centerpiece. There are 2 rows of square brilliant diamonds set one each at each end, set in 18ct yellow gold. The back of the piece, the 2 pronged pin with a catch to secure. Additionally, at the back of the circle there is an integral fitting for a chain. We show this piece with a wire 18ct yellow chain which is available to purchase with our piece, (not included). Futuristic and statement. Please contact us if you would like to know more about this stunning piece or visit us at Saddingtons Jewellery, Mayfair.
