44mm stainless steel polished case with rotating steel bezel. Black dial that has silver baton hour markers with luminous tips and the date to 3. Sapphire scratch resistant crystal.

Fitted to its original full length with double fold clasp.

Automatic movement operating from a ETA 2824-2 calibre providing a power reserve of up for 48 hours.

Pressure tested and time tested, waterproof to 50 meters. Time tested to be running at around 3 or 4 seconds per day which is incredible accuracy.

Accompanied with inner and outer box, manuals and warranty document.

Condition - Exceptional, recent professional polish. Minor light blemishes if looked up real close due to the polished steel look of the watch but incredible for the age and certainly a very fine example.
