

**IWC Pilot Spitfire IW371702**  
**£2,500.00**

Watch: IWC Pilot Spitfire IW371702  
Stock Number: CHW6768  
Price: £2500.00

A really very fine example of an IWC Pilot Spitfire reference IW371702, immaculate throughout this watch certainly stands out from the rest in terms of condition having very rarely been used over the years. We rate the condition as high as 9.5/10 we really do!

Brilliant white and silver dial with white hands and silver hour markers with both the day and date at 3. Luminous hands and hour markers. Sweeping silver seconds hands.

All function work as they should with the watch having been passed through our workshop and watchmaker.

Automatic 79320 Calibre movement that runs just as it should, perfectly infact! +/- 0 seconds per day so perfect time keeping with a healthy amplitude.

Fitted to original brown leather IWC strap with IWC buckle again that has had very little use.

Sat unused for many years we believe the watch to be from 2004 when the original owner brought the watch. Paper work has been misplaced over the years but condition is near perfect and worth the money alone in our view.
