

Cartier Santos Vendôme 8191
£2,500.00

Watch: Cartier Santos Vendome 8191
Stock Number: CHW6773
Price: £2500.00

We make no bones about this Cartier Santos Vendome not being the cheapest one out there but there is good reason for that :)

First and foremost is the condition, near immaculate 9/10 for sure and defying its age we would challenge you to find a better example. Glass and dial perfect, bracelet and case polished to be in as good as condition as they can be.

What does it come with? Inner and outer original boxes (worth a few quid on their own), Original Cartier warranty papers dating the watch to 1986 having been sold in the UK. Original manual, documented Cartier service in 1992 and standard service in 2016 in addition to having just passed through our workshop.

Quartz movement housed in the 27 x 32 mm steel case with yellow gold bezel. Brilliant white dial with those iconic navy metallic blue hands. Cabochon crown that we all associate with Cartier is in place. Fitted to original steel bracelet with gold screws to fit a wrist up to 17cm.

Need we say anymore? Agree with us now as to why this one may be a little more than some of the others you will find.
