Price: £4800.00

Straight to the point with this one of the latest versions of the legendary Omega Speedmaster's, a model range of which everyone has heard of. Dated to 2022 this example is a 9/10 for condition with some stickers still intact.

It should be noted that the original box which this watch comes in is missing the cushion (as you can see in images) and in the right light and with a loupe you can see a real minor blemish to the glass (between 1 and 2) however not noticeable unless looking up close to inspect.

What this means is that you can have this £6,600 watch for almost £2000 less than the RRP! and that includes next day delivery and a 12 month guarantee.

One of the world's if not the world's most iconic watches this Speedmaster has a 42mm stainlesssteel case with hesalite glass and the classic Seahorse case back marking. Black steeped dial withwhite luminous hands.

Manual wind movement powered by a 3831 Calibre which is a Co-Axial Master Chronometer. small seconds sub-dial, 30-minute recorder and 12-hour recorder in addition to the chronograph function.

Fitted to original steel bracelet that is full length.
