

**Victorian Diamond Cat Brooch - Charlotte Sayers**  
**£6,800.00**

An outstanding Victorian diamond brooch designed as a finely modelled cat's head, brimming with character and charm. The face is pavé-set throughout with shimmering rose-cut diamonds, totalling approximately 3.80 carats, each stone carefully placed to create texture and lifelike depth across the fur.

The expressive eyes are formed from luminous glass cabochons, lending a striking and slightly mischievous gaze, while a delicate pink enamel tongue adds a playful touch of colour and personality.

Mounted in silver to enhance the brilliance of the diamonds, with a gold reverse typical of the period, this beautifully crafted brooch is a superb example of Victorian animal jewellery.
