What's the cheapest Rolex Datejust you have? Or what's the best value Datejust you have? Or what Rolex can I get for under £5k? We get asked it all the time....

This Rolex Datejust 1601 produced in 1974 and first sold in 1976 will be the best value / cheapest you can find for one that has or is:

- Gold and Steel
- Accompanied with Box and Papers
- Mechanically excellent
- Pie Pan Dial

There is a big but however! There is no getting away from the fact that the bracelet can't be described in any other way other than 'knackered' and clearly been well used over the last 50 odd years... Perfectly usable but needs some attention if we are honest.

Now to keep this watch as cheap as we can we are going to leave it as is, you can choose to leave as is, repin the bracelet or maybe swap to a strap. (we can do all of these for you if required)

Lets be clear mechanically the watch is fine and we guarantee this for 12 months.
