This Nomos Ahoi 550 comes with its original box and undated warranty papers although first sold to the original owner in 2014.

40mm stainless steel case with smooth bezel and an exhibition case back that shows off that wonderful automatic movement.

Silver dial with luminous hands and the dial stamped with the even numbers, subsidiary seconds dial above the 6. Fitted to original Nomos black leather strap and steel buckle.

Condition wise we have left unpolished, this watch will show wear with some scratches to the case and the strap being worn. 7.5/8 - 10.

Mechanically the watch has passed through our workshop to be in excellent working order running at around +4 seconds per day.
