

## **9ct Bloodstone Signet Ring- Spectrum Antiques £750.00**

1970s 9ct Yellow Gold Bloodstone Signet Ring, Birmingham

A bold vintage signet ring in solid 9ct yellow gold, set with a dark green bloodstone featuring distinctive deep red flecks — a gemstone historically associated with strength and protection. Fully hallmarked in Birmingham, and dating to around 1970, this piece exemplifies the quality of British craftsmanship of the era.

The ring's smooth contours and substantial gold weight give it an elegant yet masculine presence, making it a refined choice for daily wear or as a meaningful gift. The bloodstone's rich tone contrasts beautifully with the warm gold, creating a timeless aesthetic that remains as stylish today as it was half a century ago.
