Fine condition and a really beautiful full set of box and papers this Cartier Panthere Cougar reference 119000 R is dated to 1994 by the original paperwork and features a 2 row of gold original bracelet.

A much lesser seen Cartier model the Cougar is no less appealing and like all Cartier's at the moment seems to be very much the watch of the moment.

2 row of gold bracelet to fit a wrist to 15cm the bracelet is in excellent condition throughout with very little sag.

Off white / Cream dial that has slightly aged in places as you would expect but perfectly fine. Classic Cartier black roman numeral hour markers and metallic blue hands to match the stone in the crown.

25mm stainless steel case with a yellow gold bezel. Case and glass are both in excellent condition. As a watch of over 25 years old it will show minor marks and scratches as throughout to the case but certainly nothing significant.

Accompanied with box, manual, papers, our 12 month guarantee and insured next day shipping.
