

Cartier Must De Cartier Tank Mechanical 'Wood' Dial £1,750.00

This Must De Cartier is an excellent gateway into vintage Cartier. It offers a more accessible way to own one of the most iconic watch designs ever created.

It is versatile size which makes it suitable for both men and women, making it the perfect everyday watch.

This particular piece is a rare manual wind mechanical version, distinguished by its unique eye catching wood dial. It comes fitted on a brown leather lizard strap.

The watch is presented in a very good overall condition. The original dial remains well preserved with a glossy finish, while the gold plating shows only light signs of wear consistent with its age. The crystal is clean and free from noticeable marks, and the movement is working good.
