

Rolex GMT
£9,450.00

This Rolex GMT-Master II 116710LN from 2012 is a fantastic example of one of Rolex’s most iconic sports watches. It comes as a complete set with its original papers, making it perfect for collectors or anyone looking for a watch with full provenance.

The watch features the classic black ceramic bezel, black dial, and the sturdy Oyster bracelet that’s comfortable for daily wear. It was fully serviced by Rolex in 2025, and all the original service stickers are still on the watch, so it’s in excellent condition and ready to go.

A complete, well-maintained GMT-Master II like this is a rare find — stylish, practical, and built to last a lifetime.
