Price: £3500.00

Hublot Super B Chronograph 1926.105.1 – Full Set – 42.5mm

A striking and increasingly sought-after example from Hublot's earlier era, this Hublot Super B Chronograph reference 1926.105.1 offers bold design, reliable chronograph performance and strong wrist presence at 42.5mm. Dated to 2010 and presented as a complete full set with original box, papers and purchase receipt, this is a well-kept and honest example of a now-discontinued Hublot model.

Our View

The Hublot Super B Chronograph remains an underrated and excellent value proposition within Hublot's lineup, representing the brand's early fusion-design philosophy before the Big Bang era exploded in popularity. Offering a comfortable rubber-steel combination, robust automatic chronograph movement and a strong 42.5mm presence, this full-set 2010 example is ideal for collectors seeking a distinctive Hublot with complete provenance and recent servicing.
