Rolex Air-King 114200 – Pink Accents Dial – Full Set – 34mm – 2010

Surely one of the most attractive and distinctive dials ever made for the Rolex Air-King reference 114200. Featuring a silver dial with Arabic numerals at 3, 6 and 9, the Rolex emblem at 12, and bold pink block indices in between, this colour accent gives the watch a unique character that stands out beautifully without being overpowering.

A complete full set from new, including box, papers, tags and accessories. First sold in 2010 and recently polished, this is a highly appealing example of a discontinued Air-King configuration that has become increasingly sought after.
