

**Smiths Nurses Pocket Watch Box like new approx. 1964  
POA**

Watch: Smiths Nurses Pocket Watch  
Stock Number: CHW6341  
Price: £250.00

A real rare find this is, a perfect gift, ornament or statement piece this little pocket watch or more likely a watch clipped to the dress of a nurse is dated back to the mid 60's and is practically in new old stock condition.

Just had a minor service in workshop its working just fine. Manual wind Smiths movement with just 5 jewels. Presented in its original presentation box and in condition which can only be described as exceptional.

21mm x 21mm stainless steel case attached to a steel short bracelet section that has a clip to attach to the garment so it can be worn or held up to be viewed correctly.

White dial with gold coloured bold hour markers so that they can clearly be seen. Sweeping red tipped second hand make it easy to use for counting the seconds as would be needed as a Nurses watch.

A really beautiful little piece of history and one you are unlikely to find again.
