Price: £1200.00

Omega Dennison Case 923 – 9ct Yellow Gold – Manual Wind Cal. 268 – 35mm – 1962

A beautiful and historically significant vintage Omega, this Dennison-cased 9ct yellow gold Omega reference 923 dates to 1962 by serial number. Produced in the UK by Dennison under contract from Omega Switzerland, these watches represent a fascinating chapter in Omega's history, created specifically to meet British gold-import regulations of the period.

Powered by the highly regarded Omega Calibre 268 manual-wind movement, this watch combines classic mid-century design with dependable mechanics and elegant proportions.

Our View

Dennison-cased gold Omegas are increasingly sought after, valued not just for their gold content but for their unique place in British watchmaking history. The reference 923 is especially appealing thanks to its balanced 35mm size, elegant dial layout and the legendary Calibre 268 powering it. With its fresh workshop check, new strap and strong overall condition, this is a refined and collectible vintage Omega that remains highly wearable today.
