

**10.60 Carat Diamond Full Eternity Band in 18K White Gold
£9,500.00**

A Statement in Light, Precision, and Presence

An exceptional and commanding diamond eternity band, meticulously set with approximately 10.60 carats of round brilliant-cut diamonds, each stone carefully matched for E–F colour and VS1 clarity — a rare and highly desirable combination that places this piece firmly within the upper tiers of fine jewellery.

Formed as a substantial, wide band in solid 18K white gold, the ring is composed of over one hundred individually claw-set diamonds arranged across multiple rows, creating a continuous field of light that wraps seamlessly around the finger. The effect is immediate and unmistakable — a bold, uninterrupted surface of brilliance that captures and reflects light from every angle.

Unlike traditional pavé work, each diamond is secured within a finely executed claw setting, allowing for superior light penetration and enhanced scintillation. This more labour-intensive method results in a noticeably sharper, more defined brilliance, elevating the ring beyond standard commercial examples.

Craftsmanship & Construction

The ring's interior reveals a fully pierced gallery — a hallmark of considered, high-quality manufacture. Each aperture has been precisely formed to allow light to pass freely through the stones, maximising their natural fire while also reducing overall weight without compromising structural integrity.

Weighing an impressive 22.67 grams, the ring possesses a reassuring density and presence, sitting confidently on the hand. The scale and engineering of the piece reflect a level of craftsmanship more commonly associated with bespoke or atelier-made jewellery rather than mass production.

The band is hallmarked 18KT and bears the maker's mark "DC", likely attributable to a specialist workshop or private manufacturer, with the quality of execution speaking far more loudly than any signature.

Design Language

This is a piece defined by volume, rhythm, and repetition — a modern interpretation of the classic eternity band, elevated through scale and precision.

The multi-row configuration creates a sculptural profile, with each diamond contributing to a continuous, almost architectural surface of brilliance. The result is a ring that feels both contemporary and timeless — equally at home as a statement piece or as part of a layered, high-jewellery composition.

A Note on Rarity

While eternity bands are a well-established form, examples of this scale — combining over 10 carats of matched, high-colour, high-clarity diamonds within a single continuous design — are notably scarce.

The balance of uniformity, quality, and structural integrity required to produce such a piece places it firmly outside the realm of standard retail jewellery.

Specifications

Total Diamond Weight: Approximately 10.60 Carats

Diamond Cut: Round Brilliant Cut

Diamond Colour: E–F

Diamond Clarity: VS1

Metal: 18K White Gold

Weight: 22.67 grams

Setting: Three-row claw-set eternity band

Hallmarks: 18KT

Maker's Mark: DC
