

## Vintage 1960s Silver Peppercorn Necklace POA

A dream to wear, this 1960s sterling silver peppercorn necklace is a fluid sculptural collar necklace that rolls beautifully against the skin rather than sitting still. Based on William Spratling's iconic Taxco designs, it features a tactile helix of interlinked silver bars and beads, finished with a striking T-bar clasp meant to be worn proudly offset at the front. It is the ultimate piece of wearable architecture that instantly elevates simple tailoring.
