Running at approximately -20 seconds per day.

Operating correctly overall.

Servicing can be carried out upon request for an additional cost.

Supplied with a 12-month mechanical guarantee.

Our View

This is exactly the type of watch purists look for — original, unpolished and full of character. The Seamaster Cosmic line offers a slightly different take on the classic Seamaster, with its barrel case and integrated feel.

Rather than being over-restored, this example tells its story honestly through its wear. For those who appreciate originality over perfection, this is a fantastic piece with charm and authenticity.
