

Vintage Ilias Lalaounis diamond & enamel ring POA

Old-world craftsmanship meets vibrant 20th-century design in this striking piece by Lalaounis . At its heart sits an oxidized, textured panel pavé-set with shimmering diamonds, bordered by the house's signature ancient granulation technique. The 18k yellow gold band features an exceptional champlévé enamel scale pattern in contrasting jewel tones of deep navy and emerald green. Bold, sculptural, and utterly timeless.
